## Request for Quotation

Thank you for your interest in our company and products. You need a Diesel Generating Set for continuous or emergency standby power? But you don't have a clear idea of execution or technical specifications? We would like to assist you!

Please complete and return this form and we will get in touch with you as soon as possible!

For what operational purpose do you need a generating set?

Stationary emergency power supply (e.g. for administrative buildings or for securing the production process)

Stationary continuous power supply (e.g. for permanent supply in case of insufficient grid supply)

Mobile power supply (e.g. at construction sites or for temporary use)

Mobile power supply during emergencies

(e.g. for rescue service organisations, fire departments or disaster control agencies)

Other uses, please describe:

---

---

---

What power output is needed? \_\_\_\_\_ kVA /kW

What voltage and frequency is needed? \_\_\_\_\_ V / \_\_\_\_\_ Hz

Are there big consumers? Yes No

If yes - please state the capacity: \_\_\_\_\_ kVA / kW

Method of starting for big consumers: DOL  
Star/Delta  
Softstarter  
VFD

Do starting currents have to be considered? Yes No

If yes - please state the starting current: \_\_\_\_\_ Ampere

The following questions apply basically to **stationary** generating sets:

Which operation mode is requested?

Emergency standby power supply  
Peak load operation  
Continuous operation

Do you have to provide power to safety-related facilities that have to operate according to public standards of safety? Yes      No

If yes, what kind of facilities?

---

How would you characterise your consumers?

Please describe (e.g. lighting, air conditioning, UPS, electric motors):

---

---

What kind of application are you interested in?

Industry  
Office / Administration  
Public  
Residential / Commercial buildings

Is or will there be a room for the installation of the genset available?

Yes      No

Where is the generator room located in the building? \_\_\_\_\_

How many exterior walls does the generator room consist of? \_\_\_\_\_

What is the size of the room? (If possible please attach a layout or a floor plan) \_\_\_\_\_

If no inside room is available, what outside locations are available as a possible alternative location?

---

---

---

The following questions apply only to **mobile** units:

Which version would you prefer?

**Container/Canopied Genset** (If you change the location you need a crane and a truck)

**Trailer** (Unit mounted on a trailer – towing vehicle is necessary)

**Automotive Genset** (Unit mounted on the truck chassis)

Please describe other uses:

---

---

Do you have to operate or frequently transport the mobile genset on public streets?

Yes      No

If yes – what is the required max. towing speed? \_\_\_\_\_

What towing vehicles are available?

---

---

Other requirements for the mobile operation:

---

---

---

---

---

---

---

---

What scope of supply are you interested in?

- Diesel Generating Set
- Control Panel
- Switchgear (ATS)
- Powerhouse Ventilation System
- Exhaust Gas System
- Tank Farm
- Mechanical Installation
- Electrical Installation
- Installation Supervision only
- Engineering
- Commissioning
- Approvals
- Other

---

---

---

Other requirements that should be considered in our quotation:

---

---

---

---

---

---

---

---

---

Please return the completed questionnaire to S·A·B.
